December 15, 2010

Ms. Lisa M. Nieman
Assistant General Counsel
Texas Department of State Health Services
P.O. Box 149347
Austin, Texas 78714-9347

OR2010-18849

Dear Ms. Nieman:

You ask whether certain information is subject to required public disclosure under the Public Information Act (the “Act”), chapter 552 of the Government Code. Your request was assigned ID# 402986 (DSHS Files 18016/2011 and 18017/2011).

The Texas Department of State Health Services (the “department”) received a request for thirteen categories of information pertaining to DeCostor Enterprises, L.L.C., Hillandale Egg, Quality Egg, Wright County Egg, and a specified outbreak of Salmonella Enteritidis. You indicate the department will release some of the requested information upon receipt of the production cost. You claim the submitted information is excepted from disclosure under sections 552.101 and 552.111 of the Government Code. We have considered the exceptions you claim and reviewed the submitted information.

Section 552.101 of the Government Code excepts from disclosure “information considered to be confidential by law, either constitutional, statutory, or by judicial decision.” Gov’t Code § 552.101. Section 552.101 encompasses information made confidential by other statutes, such as section 81.046 of the Health and Safety Code. Section 81.046 provides in part:

(a) Reports, records, and information received from any source, including from a federal agency or from another state, furnished to a public health district, a health authority, a local health department, or the department that
relate to cases or suspected cases of diseases or health conditions are confidential and may be used only for the purposes of this chapter.

(b) Reports, records, and information relating to cases or suspected cases of diseases or health conditions are not public information under [the Act], and may not be released or made public on subpoena or otherwise except as provided by Subsections (c), (d), and (f).

(c) Medical or epidemiological information may be released:

(1) for statistical purposes if released in a manner that prevents the identification of any person;

(2) with the consent of each person identified in the information;

(3) to medical personnel treating the individual, appropriate state agencies in this state or another state, a health authority or local health department in this state or another state, or federal, county, or district courts to comply with this chapter and related rules relating to the control and treatment of communicable diseases and health conditions or under another state or federal law that expressly authorizes the disclosure of this information;

(4) to appropriate federal agencies, such as the Centers for Disease Control and Prevention of the United States Public Health Service, but the information must be limited to the name, address, sex, race, and occupation of the patient, the date of disease onset, the probable source of infection, and other requested information relating to the case or suspected case of a communicable disease or health condition; or

(5) to medical personnel to the extent necessary in a medical emergency to protect the health or life of the person identified in the information.

(d) In a case of sexually transmitted disease involving a minor under 13 years of age, information may not be released, except that the child's name, age, and address and the name of the disease may be released to appropriate agents as required by Chapter 261, Family Code. If that information is required in a court proceeding involving child abuse, the information shall be disclosed in camera.
(f) Reports, records, and information relating to cases or suspected cases of diseases or health conditions may be released to the extent necessary during a public health disaster to law enforcement personnel solely for the purpose of protecting the health or life of the person identified in the report, record, or information. Only the minimum necessary information may be released under this subsection, as determined by the health authority, the local health department, or the department.

Health & Safety Code § 81.046(a)-(d), (f). In Open Records Decision No. 577 (1990), this office concluded that any information acquired or created during an investigation under chapter 81 of the Health and Safety Code is confidential and may not be released unless an exception set out in the statute applies. See id. § 81.046(b)-(d), (f); ORD 577. You state the submitted information was either furnished to or created or gathered by the department and is related to cases or suspected cases of diseases or health conditions. Thus, we agree that section 81.046(b) governs the release of this information. You represent that none of the release provisions of section 81.046 are applicable in this instance. Accordingly, based upon your representations and our review of the submitted information, we agree the department must withhold the submitted information under section 552.101 of the Government Code in conjunction with section 81.046 of the Health and Safety Code.

You also ask this office to issue a previous determination permitting the department to withhold information subject to section 81.046 of the Health and Safety Code without the necessity of requesting a decision from this office. See Gov’t Code § 552.301(a) (allowing governmental body to withhold information subject to previous determination); Open Records Decision No. 673 (2001). After due consideration, we have decided to grant your request. Therefore, this letter ruling shall serve as a previous determination under section 552.301(a) that the department must withhold from required public disclosure information furnished to or created or gathered by the department that is related to cases or suspected cases of diseases or health conditions. The department may rely on this previous determination to withhold requested information only when the release provisions of section 81.046 do not apply. In addition, this previous determination is not applicable to information to which the requestor may have a right of access under any other provision of law. See, e.g., Occ. Code § 159.002 (medical records). So long as the elements of law, fact, and circumstances do not change so as to no longer support the findings set forth above, the department need not ask for a decision from this office again with respect to this type of information. See ORD 673 at 7.

This ruling triggers important deadlines regarding the rights and responsibilities of the governmental body and of the requestor. For more information concerning those rights and responsibilities, please visit our website at http://www.oag.state.tx.us/open/index_orl.php, or call the Office of the Attorney General’s Open Government Hotline, toll free, at (877) 673-6839. Questions concerning the allowable charges for providing public
information under the Act must be directed to the Cost Rules Administrator of the Office of the Attorney General, toll free, at (888) 672-6787.

Sincerely,

Jennifer Luttrall
Assistant Attorney General
Open Records Division
