

KEN PAXTON
ATTORNEY GENERAL OF TEXAS

June 1, 2015

Ms. Audra Gonzalez Welter
Attorney & Public Information Coordinator
Office of General Counsel
The University of Texas System
201 West Seventh Street
Austin, Texas 78701-2902

OR2015-10691

Dear Ms. Welter:

You ask whether certain information is subject to required public disclosure under the Public Information Act (the "Act"), chapter 552 of the Government Code. Your request was assigned ID# 565637 (OGC# 160758).

The University of Texas M. D. Anderson Cancer Center (the "university") received a request for a complete list and documentation of all chimpanzees presently housed at the university, a complete list and documentation of all chimpanzees that have been added to or removed from the university during a specified time period, and necropsy and autopsy reports for all chimpanzees housed at the university that died during a specified time period. You state you will release some information to the requestor. You claim the remaining requested information is excepted from disclosure under section 552.101 of the Government Code. We have considered the exception you claim and reviewed the submitted representative sample of information.¹

Section 552.101 of the Government Code excepts from disclosure "information considered to be confidential by law, either constitutional, statutory, or by judicial decision."

¹We assume the "representative samples" of records submitted to this office are truly representative of the requested records as a whole. See Open Records Decision Nos. 499 (1988), 497 (1988). This open records letter does not reach, and therefore does not authorize the withholding of, any other requested records to the extent those records contain substantially different types of information than that submitted to this office.

Gov't Code § 552.101. This section encompasses information protected by other statutes, such as section 51.914 of the Education Code, which provides, in pertinent part:

(a) In order to protect the actual or potential value, the following information is confidential and is not subject to disclosure under [the Act], or otherwise:

(1) all information relating to a product, device, or process, the application or use of such a product, device, or process, and all technological and scientific information (including computer programs) developed in whole or in part at a state institution of higher education, regardless of whether patentable or capable of being registered under copyright or trademark laws, that have a potential for being sold, traded, or licensed for a fee; [or]

(2) any information relating to a product, device, or process, the application or use of such product, device, or process, and any technological and scientific information (including computer programs) that is the proprietary information of a person, partnership, corporation, or federal agency that has been disclosed to an institution of higher education solely for the purposes of a written research contract or grant that contains a provision prohibiting the institution of higher education from disclosing such proprietary information to third persons or parties[.]

Educ. Code § 51.914(a)(1)-(2). As noted in Open Records Decision No. 651 (1997), the legislature is silent as to how this office or a court is to determine whether particular scientific information has “a potential for being sold, traded, or licensed for a fee.” ORD 651 at 9 (1997). Furthermore, whether particular scientific information has such a potential is a question of fact that this office is unable to resolve in the opinion process. *See id.* Thus, this office has stated that in considering whether requested information has “a potential for being sold, traded, or licensed for a fee,” we will rely on a governmental body’s assertion that the information has this potential. *See id.* But *see id.* at 10 (stating that university’s determination that information has potential for being sold, traded, or licensed for fee is subject to judicial review). We note that section 51.914 is not applicable to working titles of experiments or other information that does not reveal the details of the research. *See Open Records Decision Nos. 557 at 3 (1990), 497 at 6-7 (1988).*

You state the university has developed unique research protocols, products, and procedures in connection with its primate research. You state the information at issue reflects the “unique devices and procedures that allow attendants to draw blood, collect samples, and conduct physical examinations on chimpanzees.” You also state the information at issue contains primate medical records that are used to track the success or lack thereof of various clinical interventions and, as such, contain valuable scientific information. You state this

information has the potential for being sold, traded, or licensed for a fee. Based on your representations and our review, we agree the information at issue is confidential under section 51.914 of the Education Code and the university must withhold it under section 552.101 of the Government Code.

This letter ruling is limited to the particular information at issue in this request and limited to the facts as presented to us; therefore, this ruling must not be relied upon as a previous determination regarding any other information or any other circumstances.

This ruling triggers important deadlines regarding the rights and responsibilities of the governmental body and of the requestor. For more information concerning those rights and responsibilities, please visit our website at http://www.texasattorneygeneral.gov/open/orl_ruling_info.shtml, or call the Office of the Attorney General's Open Government Hotline, toll free, at (877) 673-6839. Questions concerning the allowable charges for providing public information under the Act may be directed to the Office of the Attorney General, toll free, at (888) 672-6787.

Sincerely,

A handwritten signature in black ink, appearing to read 'KJM', followed by a horizontal line.

Kenny Moreland
Assistant Attorney General
Open Records Division
