

KEN PAXTON
ATTORNEY GENERAL OF TEXAS

October 27, 2015

Ms. Sarah Parker
Associate General Counsel
Texas Department of Transportation
125 East 11th Street
Austin, Texas 78701-2483

OR2015-22463

Dear Ms. Parker:

You ask whether certain information is subject to required public disclosure under the Public Information Act (the "Act"), chapter 552 of the Government Code. Your request was assigned ID# 584690.

The Texas Department of Transportation (the "department") received a request for four categories of information relating to six solicitations. The department claims some of the submitted information is excepted from disclosure under sections 552.104 and 552.111 of the Government Code. Additionally, the department states release of the submitted information may implicate the proprietary interests of third parties. Accordingly, the department states, and provides documentation showing, it notified the third parties of the request for information and of their right to submit arguments to this office as to why the submitted information should not be released. *See* Gov't Code § 552.305(d); *see also* Open Records Decision No. 542 (1990) (statutory predecessor to section 552.305 permits governmental body to rely on interested third party to raise and explain applicability of exception in the Act in certain circumstances). We have received comments from AIA Engineering, Ltd. ("AIA"); CP&Y Company ("CP&Y"); Kennedy Consulting, Inc. ("KCI"); and Structural Engineering Associates, Inc. ("SEA"). We have considered the submitted arguments and reviewed the submitted information, a portion of which consists of a representative sample of information.¹

¹We assume the "representative sample" of records submitted to this office is truly representative of the requested records as a whole. *See* Open Records Decision Nos. 499 (1988), 497 (1988). This open records letter does not reach, and therefore does not authorize the withholding of, any other requested records to the extent those records contain substantially different types of information than that submitted to this office.

The department states some of the requested information was the subject of a previous request for information, in response to which this office issued Open Records Letter No. 2015-19036 (2015). In Open Records Letter No. 2015-19036, we determined the department may withhold certain information under section 552.104(a) of the Government Code and must withhold certain information under section 552.110(b) of the Government Code, but must release the remaining responsive information; however, any information protected by copyright may only be released in accordance with copyright law. We have no indication the law, facts, or circumstances on which the prior ruling was based have changed. Accordingly, the department must continue to rely on Open Records Letter No. 2015-19036 as a previous determination and withhold or release the identical information in accordance with that ruling.² See Open Records Decision No. 673 at 6-7 (2001) (discussing criteria for first type of previous determination). We will address the department's arguments against release of the submitted information that is not encompassed by Open Records Letter No. 2015-19039.

An interested third party is allowed ten business days after the date of its receipt of the governmental body's notice under section 552.305(d) to submit its reasons, if any, as to why information relating to that party should be withheld from public disclosure. See Gov't Code § 552.305(d)(2)(B). As of the date of this letter, we have only received comments from AIA, CP&Y, KCI, and SEA explaining why the submitted information should not be released. Therefore, we have no basis to conclude any of the remaining third parties has a protected proprietary interest in the submitted information. See *id.* § 552.110; Open Records Decision Nos. 661 at 5-6 (1999) (to prevent disclosure of commercial or financial information, party must show by specific factual evidence, not conclusory or generalized allegations, release of requested information would cause that party substantial competitive harm), 552 at 5 (1990) (party must establish *prima facie* case information is trade secret), 542 at 3. Accordingly, the department may not withhold the submitted information on the basis of any proprietary interest the remaining third parties may have in the information.

Section 552.104(a) excepts from disclosure "information that, if released, would give advantage to a competitor or bidder." Gov't Code § 552.104(a). The "test under section 552.104 is whether knowing another bidder's [or competitor's information] would be an advantage, not whether it would be a decisive advantage." *Boeing Co. v. Paxton*, 466 S.W.3d 831 (Tex. 2015). The department states the information in Exhibit D pertains to competitive bidding situations. In addition, the department states, although the information at issue relates to contracts that have been awarded and executed, it solicits proposals for these types of services on a recurring basis and disclosure of the information at issue will provide an advantage to third-party competitors. After review of the information at issue and consideration of the arguments, we find the department has established the release of the information at issue would give advantage to a competitor or bidder. Thus, we conclude the

²As our determination is dispositive, we need not address the arguments against disclosure submitted by AIA, CP&Y, KCI, and SEA.

department may withhold the information in Exhibit D under section 552.104(a) of the Government Code.

In summary, the department must continue to rely on Open Records Letter No. 2015-19036 as a previous determination and withhold or release the identical information in accordance with that ruling. The department may withhold the information in Exhibit D under section 552.104(a) of the Government Code. The department must release the remaining information.

This letter ruling is limited to the particular information at issue in this request and limited to the facts as presented to us; therefore, this ruling must not be relied upon as a previous determination regarding any other information or any other circumstances.

This ruling triggers important deadlines regarding the rights and responsibilities of the governmental body and of the requestor. For more information concerning those rights and responsibilities, please visit our website at http://www.texasattorneygeneral.gov/open/orl_ruling_info.shtml, or call the Office of the Attorney General's Open Government Hotline, toll free, at (877) 673-6839. Questions concerning the allowable charges for providing public information under the Act may be directed to the Office of the Attorney General, toll free, at (888) 672-6787.

Sincerely,

David L. Wheelus
Assistant Attorney General
Open Records Division
