

KEN PAXTON
ATTORNEY GENERAL OF TEXAS

September 18, 2017

Mr. Zachary Brown
Assistant City Attorney
City of Austin
P.O. Box 1088
Austin, Texas 78767-8828

OR2017-21335

Dear Mr. Brown:

You ask whether certain information is subject to required public disclosure under the Public Information Act (the "Act"), chapter 552 of the Government Code. Your request was assigned ID# 676043 (PIR# 35415).

The City of Austin (the "city") received a request for the city's current fiber optic infrastructure map. You claim the submitted information is excepted from disclosure under section 552.101 of the Government Code. We have considered the exception you claim and reviewed the submitted representative sample of information.¹

Section 552.101 of the Government Code excepts from disclosure "information considered to be confidential by law, either constitutional, statutory, or by judicial decision." Gov't Code § 552.101. This section encompasses the Texas Homeland Security Act (the "HSA"). As part of the HSA, sections 418.176 through 418.182 were added to chapter 418 of the Government Code. These provisions make certain information related to terrorism confidential. Section 418.181 provides:

Those documents or portions of documents in the possession of a governmental entity are confidential if they identify the technical details of particular vulnerabilities of critical infrastructure to an act of terrorism.

¹We assume the "representative sample" of records submitted to this office is truly representative of the requested records as a whole. *See* Open Records Decision Nos. 499 (1988), 497 (1988). This open records letter does not reach, and therefore does not authorize the withholding of, any other requested records to the extent that those records contain substantially different types of information than that submitted to this office.

Id. § 418.181. The fact that information may relate to a governmental body's security concerns does not make the information *per se* confidential under the HSA. *See* Open Records Decision No. 649 at 3 (1996) (language of confidentiality provision controls scope of its protection). Furthermore, the mere recitation by a governmental body of a statute's key terms is not sufficient to demonstrate the applicability of the claimed provision. As with any exception to disclosure, a governmental body asserting one of the confidentiality provisions of the HSA must adequately explain how the responsive records fall within the scope of the claimed provision. *See* Gov't Code § 552.301(e)(1)(A) (governmental body must explain how claimed exception to disclosure applies).

You state the submitted information consists of fiber optic network infrastructure maps for government buildings in the city. You assert, and we agree, the city's fiber optic network is critical infrastructure. *See generally id.* § 421.001 (defining "critical infrastructure" to include "all public or private assets, systems, and functions vital to the security, governance, public health and safety, economy, or morale of the state or the nation"). You also state the information at issue "reveals the foundation for electronic communications among the public partners" in the city. You argue release of the submitted information "would compromise the physical and electronic security of the [c]ity." Based on your representations and our review, we agree the submitted information identifies the technical details of particular vulnerabilities of critical infrastructure to an act of terrorism. Therefore, the city must withhold the submitted information under section 552.101 of the Government Code in conjunction with section 418.181 of the Government Code.

This letter ruling is limited to the particular information at issue in this request and limited to the facts as presented to us; therefore, this ruling must not be relied upon as a previous determination regarding any other information or any other circumstances.

This ruling triggers important deadlines regarding the rights and responsibilities of the governmental body and of the requestor.
