

KEN PAXTON
ATTORNEY GENERAL OF TEXAS

October 17, 2017

Mr. Vic Ramirez
Associate General Counsel
Lower Colorado River Authority
P.O. Box 220
Austin, Texas 78767-0220

OR2017-23793

Dear Mr. Ramirez:

You ask whether certain information is subject to required public disclosure under the Public Information Act (the "Act"), chapter 552 of the Government Code. Your request was assigned ID# 680780.

The Lower Colorado River Authority (the "authority") received a request for information pertaining to the Mansfield Dam (the "dam"). You claim the submitted information is excepted from disclosure under section 552.101 of the Government Code.¹ We have considered the exception you claim and reviewed the submitted representative sample of information.²

Section 552.101 of the Government Code excepts from disclosure "information considered to be confidential by law, either constitutional, statutory, or by judicial decision." Gov't

¹Although you also raise section 552.133 of the Government Code, you make no arguments to support this exception. Therefore, we assume you have withdrawn your claim that this section applies to the submitted information. *See* Gov't Code §§ 552.301, .302.

²We assume the "representative sample" of records submitted to this office is truly representative of the requested records as a whole. *See* Open Records Decision Nos. 499 (1988), 497 (1988). This open records letter does not reach, and therefore does not authorize the withholding of, any other requested records to the extent those records contain substantially different types of information than that submitted to this office.

Code § 552.101. This section encompasses information protected by other statutes, such as section 418.181 of the Government Code, which was added to chapter 418 of the Government Code as part of the Texas Homeland Security Act. Section 418.181 provides,

Those documents or portions of documents in the possession of a governmental entity are confidential if they identify the technical details of particular vulnerabilities of critical infrastructure to an act of terrorism.

Id. § 418.181. The fact information may generally be related to a governmental body's security concerns or to a security system does not make the information *per se* confidential under section 418.181. *See* Open Records Decision No. 649 at 3 (1996) (language of confidentiality provision controls scope of its protection). Furthermore, the mere recitation by a governmental body of a statute's key terms is not sufficient to demonstrate the applicability of a claimed provision. As with any confidentiality provision, a governmental body asserting section 418.181 must adequately explain how the responsive information falls within the scope of the statute. *See* Gov't Code § 552.301(e)(1)(A) (governmental body must explain how claimed exception to disclosure applies).

You argue, and we agree, the dam is critical infrastructure for purposes of section 418.181. *See generally id.* § 421.001(2) (defining "critical infrastructure" to include "all public or private assets, systems, and functions vital to the security, governance, public health and safety, economy, or morale of the state or the nation"). You state release of the submitted information "would reveal the type of information, including any vulnerabilities, which could be utilized in the evaluation, prioritization, preparation and implementation of an act of terror on [the dam]." Based on your representations and our review of the information at issue, we find the authority has demonstrated the release of the information at issue would identify the technical details of particular vulnerabilities of the dam to an act of terrorism. Thus, the authority must withhold the submitted information under section 552.101 of the Government Code in conjunction with section 418.181 of the Government Code.³

This letter ruling is limited to the particular information at issue in this request and limited to the facts as presented to us; therefore, this ruling must not be relied upon as a previous determination regarding any other information or any other circumstances.

This ruling triggers important deadlines regarding the rights and responsibilities of the governmental body and of the requestor.
