City of San Antonio

OR2019-22473

Dear Ms. Cedillo:

You ask whether certain information is subject to required public disclosure under the Public Information Act (the "Act"), chapter 552 of the Government Code. Your request was assigned ID# 780740 (ORR# W266399).

The City of San Antonio (the "city") received a request for information pertaining to specified software of the city's public library. The city claims the submitted information is excepted from disclosure under section 552.139 of the Government Code. We have considered the claimed exception and reviewed the submitted information.

Section 552.139 of the Government Code provides in relevant part the following:

(a) Information is excepted from the requirements of Section 552.021 if it is information that relates to computer network security, to restricted information under 2059.055 [of the Government Code], or to the design, operation, or defense of a computer network.

(b) The following information is confidential:

(1) a computer network vulnerability report; [and]

(2) any other assessment of the extent to which data processing operations, a computer, a computer program, network, system, or system interface, or software of a governmental body or of a contractor of a governmental body is vulnerable to unauthorized access or harm, including an assessment of the extent to which the

governmental body's or contractor's electronically stored information containing sensitive or critical information is vulnerable to alteration, damage, erasure, or inappropriate use[.]

Gov't Code § 552.139(a), (b)(1)-(2). The city asserts the submitted information relates to computer security or infrastructure. Upon review, we find some of the information at issue, which we have marked, relates to computer network security or the design, operation, or defense of a computer network. Accordingly, the city must withhold the information we have marked under section 552.139 of the Government Code. However, we find the city has failed to demonstrate the remaining information relates to computer network security, restricted information under section 2059.055, or to the design, operation, or defense of a computer network as contemplated in section 552.139(a). *See id.* § 2059.055 (defining confidential network information for purposes of section 2059.055). Further, we find the city has failed to demonstrate this information consists of a computer network vulnerability report or assessment as contemplated by section 552.139(b). Therefore, the city may not withhold the remaining information under section 552.139. Consequently, the city must release the remaining information.

This letter ruling is limited to the particular information at issue in this request and limited to the facts as presented to us; therefore, this ruling must not be relied upon as a previous determination regarding any other information or any other circumstances.

This ruling triggers important deadlines regarding the rights and responsibilities of the governmental body and of the requestor.
