

KEN PAXTON
ATTORNEY GENERAL OF TEXAS

December 20, 2019

Mr. Vic Ramirez
Associate General Counsel
Lower Colorado River Authority
P.O. Box 220
Austin, Texas 78767

OR2019-36212

Dear Mr. Ramirez:

You ask whether certain information is subject to required public disclosure under the Public Information Act (the "Act"), chapter 552 of the Government Code. Your request was assigned ID# 802874 (ORR# 1000064).

The Lower Colorado River Authority (the "authority") received a request for purchasing records during a period of time. You claim the submitted information is excepted from disclosure under sections 552.101, 552.104, and 552.133 of the Government Code. We have considered the exceptions you claim and reviewed the submitted representative sample of information.¹

Section 552.133 of the Government Code excepts from disclosure a public power utility's information that is "reasonably related to a competitive matter." Gov't Code § 552.133(b). Section 552.133 provides, in relevant part:

(a) In this section, "public power utility" means an entity providing electric or gas utility services that is subject to the provisions of this chapter.

(a-1) For purposes of this section, "competitive matter" means a utility-related matter that is related to the public power utility's competitive

¹ We assume the "representative sample" of records submitted to this office is truly representative of the requested records as a whole. *See* Open Records Decision Nos. 499 (1988), 497 (1988). This open records letter does not reach, and therefore does not authorize the withholding of, any other requested records to the extent that those records contain substantially different types of information than that submitted to this office.

activity, including commercial information, and would, if disclosed, give advantage to competitors or prospective competitors. The term:

(1) means a matter that is reasonably related to the following categories of information:

(A) generation unit specific and portfolio fixed and variable costs, including forecasts of those costs, capital improvement plans for generation units, and generation unit operating characteristics and outage scheduling;

(B) bidding and pricing information for purchased power, generation and fuel, and Electric Reliability Council of Texas bids, prices, offers, and related services and strategies;

(C) effective fuel and purchased power agreements and fuel transportation arrangements and contracts;

(D) risk management information, contracts, and strategies, including fuel hedging and storage;

(E) plans, studies, proposals, and analyses for system improvements, additions, or sales, other than transmission and distribution system improvements inside the service area for which the public power utility is the sole certificated retail provider; and

(F) customer billing, contract, and usage information, electric power pricing information, system load characteristics, and electric power marketing analyses and strategies[.]

Id. § 552.133(a), (a-1)(1). Section 552.133(a-1)(2) provides fifteen categories of information that are not competitive matters. *See id.* § 552.133(a-1)(2). You state the authority engages in competition in the electric utility markets and has the legislative and statutory authority to do so. Thus, the authority is a public power utility for purposes of section 552.133. You inform us the submitted information pertains to costs, pricing, equipment and power generation system repair descriptions. You explain the release of the submitted information would jeopardize the authority's position in the competitive electric market and provide an advantage to its competitors. Further, you state the information at issue is not among the fifteen categories of information expressly excluded from the definition of "competitive matter" by section 552.133(a-1)(2). Based on your representations and our review, we find the information at issue relates to competitive matters as defined by section 552.133(a-1). Accordingly, we conclude the authority must withhold the submitted information under section 552.133 of the Government Code.²

² As our ruling is dispositive, we need not address your remaining arguments against disclosure of this information.

This letter ruling is limited to the particular information at issue in this request and limited to the facts as presented to us; therefore, this ruling must not be relied upon as a previous determination regarding any other information or any other circumstances.

This ruling triggers important deadlines regarding the rights and responsibilities of the governmental body and of the requestor.
