

KEN PAXTON
ATTORNEY GENERAL OF TEXAS

August 17, 2020

Mr. Jonathan Miles
Open Records Attorney
Texas Health and Human Services Commission
P.O. Box 13247
Austin, Texas 78711-3247

OR2020-20580

Dear Mr. Miles:

You ask whether certain information is subject to required public disclosure under the Public Information Act (the "Act"), chapter 552 of the Government Code. Your request was assigned ID# 839863 (HHSC ORR Nos. 22517 and 22518).

The Health and Human Services Commission (the "commission") received two requests from the same requestor for information related to the number of patients and employees of a specified facility who have been tested for COVID-19 during a specified period. You claim the submitted information is not subject to the Act pursuant to section 552.002(d) of the Government Code. We have considered the submitted argument and reviewed the submitted information.

Initially, we note the requestor seeks only the number of employees who have been tested. The commission has submitted documents that contain information beyond this specific piece of information. Thus, the portions of the submitted documents that do not consist of the information requested are not responsive to the present request. This ruling does not address the public availability of any information that is not responsive to the request and the commission is not required to release that information in response to the request.

We address your argument the responsive information does not consist of public information subject to the Act pursuant to section 552.002(d) of the Government Code. The Act applies to "public information," which is defined in section 552.002(a) of the Government Code as "information that is written, produced, collected, assembled, or maintained under a law or ordinance or in connection with the transaction of official business[.]" Gov't Code § 552.002(a)(1). However, "protected health information" as defined by section 181.006 of the Health and Safety Code is expressly excluded from the

Act's definition of "public information." *See id.* § 552.002(d). Section 181.006 of the Health and Safety Code provides, in relevant part:

[F]or a covered entity that is a governmental unit, an individual's protected health information:

(1) includes any information that reflects that an individual received health care from the covered entity[.]

Health & Safety Code § 181.006(1). Section 181.001(b)(2)(A) defines "covered entity," in part, as any person who:

for commercial, financial, or professional gain, monetary fees, or dues, or on a cooperative, nonprofit, or pro bono basis, engages, in whole or in part, and with real or constructive knowledge, in the practice of assembling, collecting, analyzing, using, evaluating, storing, or transmitting protected health information. The term includes a business associate, health care payer, governmental unit, information or computer management entity, school, health researcher, health care facility, clinic, health care provider, or person who maintains an Internet site[.]

Id. § 181.001(b)(2)(A). Section 181.001 states, "[u]nless otherwise defined in this chapter, each term that is used in this chapter has the meaning assigned by the Health Insurance Portability and Accountability Act and Privacy Standards [(“HIPAA”).]” *Id.* § 181.001(a). Accordingly, as chapter 181 does not define “protected health information,” we turn to HIPAA’s definition of the term. HIPAA defines “protected health information” as individually identifiable health information that is transmitted or maintained in electronic media or any other form or medium. *See* 45 C.F.R. § 160.103. HIPAA defines “individually identifiable health information” as information that is a subset of health information, including demographic information collected from an individual, and:

(1) Is created or received by a health care provider, health plan, employer, or health care clearinghouse; and

(2) Relates to the past, present, or future physical or mental health or condition of an individual; the provision of health care to an individual; or the past, present, or future payment for the provision of health care to an individual; and

(i) That identifies the individual; or

(ii) With respect to which there is a reasonable basis to believe the information can be used to identify the individual.

Id. Although you assert the commission is a covered entity, you have failed to demonstrate the responsive information consists of protected health information. Accordingly, we find the responsive information is subject to the Act, and the commission must release it unless

it falls within an exception to public disclosure under the Act. *See* Gov't Code §§ 552.006, .021, .301, .302. As no exceptions to disclosure have been raised, the commission must release the submitted information.

This letter ruling is limited to the particular information at issue in this request and limited to the facts as presented to us; therefore, this ruling must not be relied upon as a previous determination regarding any other information or any other circumstances.

This ruling triggers important deadlines regarding the rights and responsibilities of the governmental body and of the requestor. For more information concerning those rights and responsibilities, please visit our website at <https://www.texasattorneygeneral.gov/open-government/members-public/what-expect-after-ruling-issued> or call the OAG's Open Government Hotline, toll free, at (877) 673-6839. Questions concerning the allowable charges for providing public information under the Public Information Act may be directed to the Cost Rules Administrator of the OAG, toll free, at (888) 672-6787.

Sincerely,

Sean McCormick
Assistant Attorney General
Open Records Division
