Ms. Jennifer Burnett
Senior Attorney & Public Information Coordinator
The University of Texas System
210 West 7th Street
Austin, Texas 78701-2903

OR2020-21364

Dear Ms. Burnett:

You ask whether certain information is subject to required public disclosure under the Public Information Act (the "Act"), chapter 552 of the Government Code. Your request was assigned ID# 841933 (OGC# 197628).

The University of Texas System (the "system") received a request for a contract and winning proposal pertaining to a specified request for proposals. You claim some of the submitted information is excepted from disclosure under section 552.139 of the Government Code. Additionally, you state release of this information may implicate the proprietary interests of EverFi, Inc. ("EverFi"). Accordingly, you state, and provide documentation showing, you notified EverFi of the request for information and of their right to submit arguments to this office as to why the information at issue should not be released. *See* Gov't Code § 552.305(d); *see also* Open Records Decision No. 542 (1990) (statutory predecessor to section 552.305 permits governmental body to rely on interested third party to raise and explain applicability of exception in the Act in certain circumstances). We have considered the exception you claim and reviewed the submitted information.

We note an interested third party is allowed ten business days after the date of its receipt of the governmental body's notice under section 552.305(d) of the Government Code to submit its reasons, if any, as to why information relating to that party should be withheld from public disclosure. *See* Gov't Code § 552.305(d)(2)(B). As of the date of this letter, we have not received comments from EverFi explaining why the submitted information should not be released. Therefore, we have no basis to conclude EverFi has a protected proprietary interest in the submitted information. *See, e.g., id.* § 552.110 (requiring the provision of specific factual evidence demonstrating the applicability of the exception). Accordingly, the system may not withhold any portion of the submitted information related to EverFi on the basis of any proprietary interest it may have in the information.

Section 552.139 of the Government Code provides, in relevant part:

(a) Information is excepted from [required public disclosure] if it is information that relates to computer network security, to restricted information under Section 2059.055 [of the Government Code], or to the design, operation, or defense of a computer network.

(b) The following information is confidential:

(1) a computer network vulnerability report;

(2) any other assessment of the extent to which data processing operations, a computer, a computer program, network, system, or system interface, or software of a governmental body or of a contractor of a governmental body is vulnerable to unauthorized access or harm, including an assessment of the extent to which the governmental body's or contractor's electronically stored information containing sensitive or critical information is vulnerable to alteration, damage, erasure, or inappropriate use; [and]

...

(4) information directly arising from a governmental body's routine efforts to prevent, detect, investigate, or mitigate a computer security incident, including information contained in or derived from an information security log.

Id. § 552.139(a), (b)(1)-(2), (4). Section 2059.055 of the Government Code provides, in pertinent part:

(b) Network security information is confidential under this section if the information is:

(1) related to passwords, personal identification numbers, access codes, encryption, or other components of the security system of a governmental entity;

(2) collected, assembled, or maintained by or for a governmental entity to prevent, detect, or investigate criminal activity; or

(3) related to an assessment, made by or for a governmental entity or maintained by a governmental entity, of the vulnerability of a network to criminal activity.

Id. § 2059.055(b). The system asserts the information it marked relates to computer security or infrastructure. Upon review, we find the information you marked relates to computer network security or the design, operation, or defense of a computer network.

Accordingly, the system must withhold the information you marked under section 552.139 of the Government Code.

We note some of the remaining information appears to be protected by copyright. A custodian of public records must comply with the copyright law and is not required to furnish copies of records that are copyrighted. Open Records Decision No. 180 at 3 (1977). A governmental body must allow inspection of copyrighted materials unless an exception applies to the information. *Id.*; see Open Records Decision No. 109 (1975). If a member of the public wishes to make copies of copyrighted materials, the person must do so unassisted by the governmental body. In making copies, the member of the public assumes the duty of compliance with the copyright law and the risk of a copyright infringement suit.

In summary, the system must withhold the information you marked under section 552.139 of the Government Code. The system must release the remaining information; however, any information subject to copyright may only be released in accordance with copyright law.

This letter ruling is limited to the particular information at issue in this request and limited to the facts as presented to us; therefore, this ruling must not be relied upon as a previous determination regarding any other information or any other circumstances.

This ruling triggers important deadlines regarding the rights and responsibilities of the governmental body and of the requestor.
