Assistant General Counsel
Texas Medical Board
P.O. Box 2018

OR2022-01713

Dear Ms. Tuthill:

You ask whether certain information is subject to required public disclosure under the Public Information Act (the "Act"), chapter 552 of the Government Code. Your request was assigned ID# 925838 (Ref. No. 32534).

The Texas Medical Board (the "board") received a request for certain information pertaining to licensed individuals.¹ The board states it released some information. The board claims some of the submitted information is excepted from disclosure under sections 552.101 and 552.139 of the Government Code. We have considered the claimed exceptions and reviewed the submitted representative sample of information.²

Section 552.139 of the Government Code provides, in relevant part:

(a) Information is excepted from [required public disclosure] if it is information that relates to computer network security, to restricted information under Section 2059.055 [of the Government Code], or to the design, operation, or defense of a computer network.

(b) The following information is confidential:

¹ The board states it sought and received clarification of the information requested. *See Gov't Code* § 552.222 (providing if request for information is unclear, governmental body may ask requestor to clarify request); *see also City of Dallas v. Abbott*, 304 S.W.3d 380, 387 (Tex. 2010) (holding that when a governmental entity, acting in good faith, requests clarification or narrowing of an unclear or overbroad request for information, the ten-day period to request an attorney general ruling is measured from the date the request is clarified or narrowed).

² We assume the representative sample of records submitted to this office is truly representative of the requested records as a whole. *See Open Records Decision Nos.* 499 (1988), 497 (1988). This open records letter does not reach, and therefore does not authorize the withholding of, any other requested records to the extent those records contain substantially different types of information than that submitted to this office.

- (1) a computer network vulnerability report;
- (2) any other assessment of the extent to which data processing operations, a computer, a computer program, network, system, or system interface, or software of a governmental body or of a contractor of a governmental body is vulnerable to unauthorized access or harm, including an assessment of the extent to which the governmental body's or contractor's electronically stored information containing sensitive or critical information is vulnerable to alteration, damage, erasure, or inappropriate use; [and]
- ...
- (4) information directly arising from a governmental body's routine efforts to prevent, detect, investigate, or mitigate a computer security incident, including information contained in or derived from an information security log.

Gov't Code § 552.139(a), (b)(1)-(2), (4). Section 2059.055 of the Government Code provides, in pertinent part:

(b) Network security information is confidential under this section if the information is:

- (1) related to passwords, personal identification numbers, access codes, encryption, or other components of the security system of a governmental entity;
- (2) collected, assembled, or maintained by or for a governmental entity to prevent, detect, or investigate criminal activity; or
- (3) related to an assessment, made by or for a governmental entity or maintained by a governmental entity, of the vulnerability of a network to criminal activity.

Id. § 2059.055(b). The board states the e-mail addresses at issue are “used as unique user codes . . . as part of the computer network security of the [b]oard[.]” Thus, the board states these e-mail addresses are part of the board's computer network security and “safeguard access to sensitive and confidential information held in the secure online systems of the [board].” Based upon these representations and our review of the information, we find the board has demonstrated the information at issue relates to computer network security,

restricted information under section 2059.055, or to the design, operation, or defense of the computer network as contemplated by section 552.139(a). Accordingly, the board must withhold the e-mail addresses within the submitted information under section 552.139(a) of the Government Code.³ The board must release the remaining information.

This letter ruling is limited to the particular information at issue in this request and limited to the facts as presented to us; therefore, this ruling must not be relied upon as a previous determination regarding any other information or any other circumstances.

This ruling triggers important deadlines regarding the rights and responsibilities of the governmental body and of the requestor.
