Dear Ms. Cotton:

You ask whether certain information is subject to required public disclosure under the Public Information Act (the "Act"), chapter 552 of the Government Code. Your request was assigned ID# 930425 (GovQA ID# G053626).

The City of Frisco (the "city") received a request for specified records involving a named individual. You claim the submitted information is excepted from disclosure under section 552.101 of the Government Code. We have considered the exception you claim and reviewed the submitted information.

Section 552.101 of the Government Code excepts from disclosure "information considered to be confidential by law, either constitutional, statutory, or by judicial decision." Gov't Code § 552.101. This section encompasses information protected by section 773.091 of the Health and Safety Code, which provides in part:

- (a) A communication between certified emergency medical services [(“EMS”)] personnel or a physician providing medical supervision and a patient that is made in the course of providing emergency medical services to the patient is confidential and privileged and may not be disclosed except as provided by this chapter.

(b) Records of the identity, evaluation, or treatment of a patient by emergency medical services personnel or by a physician providing medical supervision that are created by the emergency medical services personnel or physician or maintained by an emergency medical services provider are confidential and privileged and may not be disclosed except as provided by this chapter.

...

(g) The privilege of confidentiality under this section does not extend to information regarding the presence, nature of injury or illness, age, sex, occupation, and city of residence of a patient who is receiving emergency medical services.

Health & Safety Code § 773.091(a)-(b), (g). You assert, and we agree, the remaining information consists of records made and maintained by emergency medical services personnel. However, we note the information at issue reveals the individual concerned was deceased when emergency medical services personnel arrived. The term “patient” is not defined for the purposes of section 773.091 of the Health and Safety Code. When a word used in a statute is not defined and that word is “connected with and used with reference to a particular trade or subject matter or is used as a word of art, the word shall have the meaning given by experts in the particular trade, subject matter, or art.” Gov’t Code § 312.002; *see also Liberty Mut. Ins. Co. v. Garrison Contractors, Inc.*, 966 S.W.2d 482, 485 (Tex. 1998). Taber’s Cyclopedic Medical Dictionary defines “patient” as “one who is sick with, or being treated for, an illness or injury; [or] . . . an individual receiving medical care.” Taber’s Cyclopedic Medical Dictionary 1446 (17th ed. 1989). We also note other statutes dealing with medically-related professions generally define “patient” as an individual who consults a health care professional. *See* Health & Safety Code § 611.001 (mental health records), Occ. Code §§ 159.001 (physician records), 201.401 (chiropractic records), 202.401 (podiatric records), 258.101 (dental records). Thus, because the generally accepted medical definition of patient indicates the term refers to a living individual, we find the term does not encompass information that concerns a deceased individual. Accordingly, we conclude section 773.091 of the Health and Safety Code is not applicable to the submitted information and the city may not withhold any portion of the submitted information under section 552.101 on that basis. As you raise no further exceptions to disclosure, the city must release the submitted information.

This letter ruling is limited to the particular information at issue in this request and limited to the facts as presented to us; therefore, this ruling must not be relied upon as a previous determination regarding any other information or any other circumstances.

This ruling triggers important deadlines regarding the rights and responsibilities of the governmental body and of the requestor.
