Mr. Brady Flanery  
Assistant City Attorney  
City of Dallas  
1500 Marilla Street  
Dallas, Texas 75201

OR2022-33807

Dear Mr. Flanery:

You ask whether certain information is subject to required public disclosure under the Public Information Act (the "Act"), chapter 552 of the Government Code. Your request was assigned ID# 978307 (ORR# C007676-081522).

The City of Dallas (the "city") received a request for source data related to a specified report. You claim the submitted information is excepted from disclosure under sections 552.101 and 552.139 of the Government Code. We have considered the exceptions you claim and reviewed the submitted representative sample of information.<sup>1</sup>

Section 552.139 of the Government Code provides, in relevant part:

(a) Information is excepted from [required public disclosure] if it is information that relates to computer network security, to restricted information under Section 2059.055 [of the Government Code], or to the design, operation, or defense of a computer network.

(b) The following information is confidential:

(1) a computer network vulnerability report;

<sup>1</sup> We assume that the "representative sample" of records submitted to this office is truly representative of the requested records as a whole. See Open Records Decision Nos. 499 (1988), 497 (1988). This open records letter does not reach, and therefore does not authorize the withholding of, any other requested records to the extent that those records contain substantially different types of information than that submitted to this office.

(2) any other assessment of the extent to which data processing operations, a computer, a computer program, network, system, or system interface, or software of a governmental body or of a contractor of a governmental body is vulnerable to unauthorized access or harm, including an assessment of the extent to which the governmental body's or contractor's electronically stored information containing sensitive or critical information is vulnerable to alteration, damage, erasure, or inappropriate use; [and]

...

(4) information directly arising from a governmental body's routine efforts to prevent, detect, investigate, or mitigate a computer security incident, including information contained in or derived from an information security log.

*Id.* § 552.139(a), (b)(1)-(2), (4). Section 2059.055 of the Government Code provides, in pertinent part:

(b) Network security information is confidential under this section if the information is:

(1) related to passwords, personal identification numbers, access codes, encryption, or other components of the security system of a governmental entity;

(2) collected, assembled, or maintained by or for a governmental entity to prevent, detect, or investigate criminal activity; or

(3) related to an assessment, made by or for a governmental entity or maintained by a governmental entity, of the vulnerability of a network to criminal activity.

*Id.* § 2059.055(b). You assert the submitted information includes “specific code language that could enable public access to a secure database used by the [c]ity.” You state the database at issue “pertains to specific departments with highly security-sensitive information” and is protected by various security measures. Based upon your representations and our review, we find section 552.139 is applicable to the submitted information. Accordingly, the city must withhold the submitted information under section 552.139 of the Government Code.<sup>2</sup>

This letter ruling is limited to the particular information at issue in this request and limited to the facts as presented to us; therefore, this ruling must not be relied upon as a previous determination regarding any other information or any other circumstances.

---

<sup>2</sup> As our ruling is dispositive, we need not address your remaining argument against disclosure.

This ruling triggers important deadlines regarding the rights and responsibilities of the governmental body and of the requestor.
