Dear Ms. Carillo:

You ask whether certain information is subject to required public disclosure under the Public Information Act (the "Act"), chapter 552 of the Government Code. Your request was assigned ID# 982491.

The Del Valle Independent School District (the "district"), which you represent, received a request for six categories of information related to a specified software program.¹ You claim the submitted information is excepted from disclosure under sections 552.101 and 552.139 of the Government Code. We have considered the exceptions you claim and reviewed the submitted information.

Section 552.139 of the Government Code provides, in relevant part:

(a) Information is excepted from [required public disclosure] if it is information that relates to computer network security, to restricted information under Section 2059.055 [of the Government Code], or to the design, operation, or defense of a computer network.

(b) The following information is confidential:

¹ We note the district sought and received clarification of the information requested. See Gov't Code § 552.222 (providing if request for information is unclear, governmental body may ask requestor to clarify request); see also *City of Dallas v. Abbott*, 304 S.W.3d 380, 387 (Tex. 2010) (holding that when a governmental entity, acting in good faith, requests clarification or narrowing of an unclear or overbroad request for information, the ten-day period to request an attorney general ruling is measured from the date the request is clarified or narrowed).

- (1) a computer network vulnerability report;
- (2) any other assessment of the extent to which data processing operations, a computer, a computer program, network, system, or system interface, or software of a governmental body or of a contractor of a governmental body is vulnerable to unauthorized access or harm, including an assessment of the extent to which the governmental body's or contractor's electronically stored information containing sensitive or critical information is vulnerable to alteration, damage, erasure, or inappropriate use; [and]
- ...
- (4) information directly arising from a governmental body's routine efforts to prevent, detect, investigate, or mitigate a computer security incident, including information contained in or derived from an information security log.

Id. § 552.139(a), (b)(1)-(2), (4). Section 2059.055 of the Government Code provides, in pertinent part:

(b) Network security information is confidential under this section if the information is:

- (1) related to passwords, personal identification numbers, access codes, encryption, or other components of the security system of a governmental entity;
- (2) collected, assembled, or maintained by or for a governmental entity to prevent, detect, or investigate criminal activity; or
- (3) related to an assessment, made by or for a governmental entity or maintained by a governmental entity, of the vulnerability of a network to criminal activity.

Id. § 2059.055(b). You assert the submitted information consists of “reports and data gathered that is an assessment of the [d]istrict’s computer network, system, and/or software of the [d]istrict . . . which is vulnerable to unauthorized access or harm, including . . . sensitive or critical information being vulnerable to alteration, damage, erasure, or inappropriate use.” You state the submitted data “directly arise[s] from the [d]istrict’s routine efforts to prevent, detect, investigation, or mitigate a computer security incident.” Accordingly, the district must withhold the submitted information under section 552.139 of the Government Code.²

² As our ruling is dispositive, we need not address your remaining argument against disclosure.

This letter ruling is limited to the particular information at issue in this request and limited to the facts as presented to us; therefore, this ruling must not be relied upon as a previous determination regarding any other information or any other circumstances.
